

Divojet™

Boost the cleaning and cost efficiency of your conveyor dishwasher

...a big impact

Divojet uses unique technology to boost the cleaning and cost efficiency of your conveyor dishwasher.

Using the same amount of detergents as standard dosing systems but Divojet gives you much more cleaning power by initially spraying the concentrated detergents directly on to your dishes.

As chemicals are more effective when concentrated, stubborn and baked on stains, such as baked on potato and rice strokes, are more easily washed and rinsed.

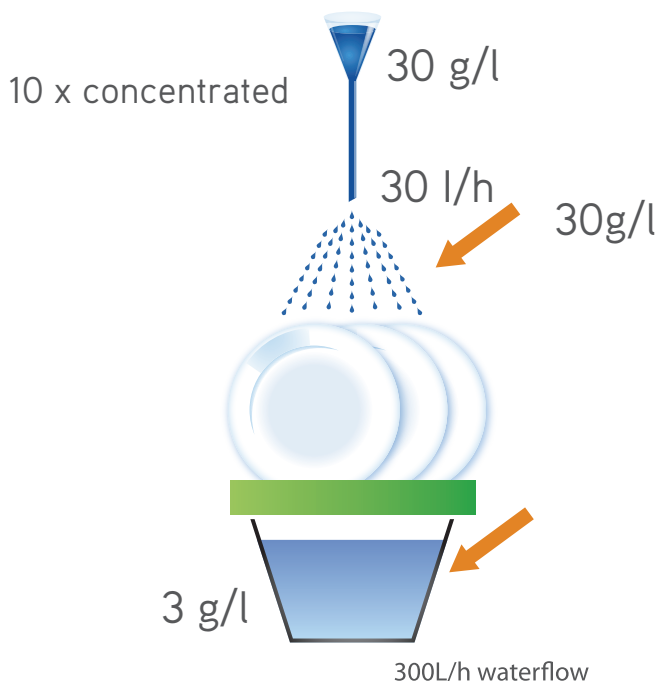

The results?

Dish ware that is perfectly clean in one pass

Same amount of detergent with 10X more cleaning power

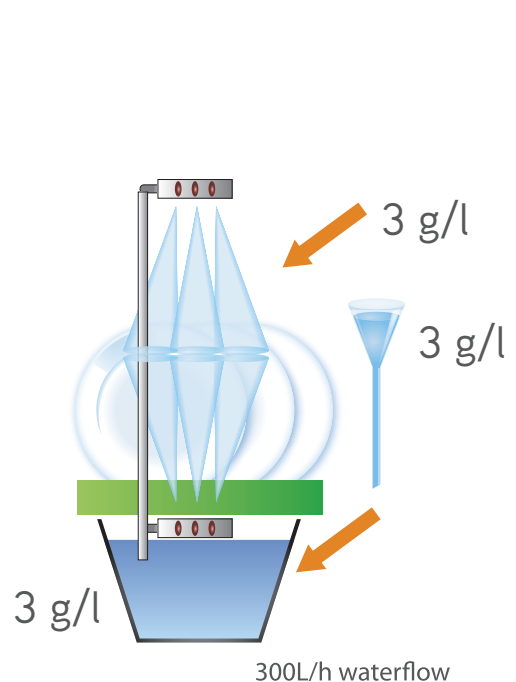

Divojet System:

10 times more cleaning power on your dishes

Standard System:

With water diluted chemicals on your dishes

Benefits

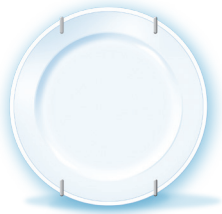

Clean

- No re-wash and better streamlined operations

Efficient

- More cleaning power with same amount of chemicals
- No manual soaking with detergents needed
- No re-wash means less manual handling and less breakage
- Higher conveyer speed saves you time

Simple addition

- Divojet can be added to most conveyor dishwashers, on site or at the factory when ordering a new machine
- Installation of Divojet easily at your site or in the factory of your new dishwasher supplier

Satisfaction

- Robust cleaning motivates your team
- The best results impress your customer
- Safer working environment for your team
