

**J-flex<sup>®</sup>**

System solutions for cleaning

# The J-flex System Total dilution control

J-flex is a revolutionary system providing solutions to the issues that surround dilution control. The system captures all the benefits of using concentrates whilst minimising training, risk and dilution error.

## Portable and convenient

J-flex is portable and connects to any convenient cold water supply via a standard hose connector. Simply select the dilution required (trigger, bucket or machine) and ready to use product will be accurately dispensed every time.

## Reduced end user costs

A single J-flex unit can dispense up to 2,500 litres of useable product with no wastage, after which it can be disposed as recyclable waste. The excellent cost in use has been shown to reduce end user costs by as much as 90%.

## Oxivir® J-flex

A new generation cleaner disinfectant based on Accelerated Hydrogen Peroxide.

Oxivir J-flex is the ideal solution for large areas that need to be disinfected to the highest EN Standards.

Excellent for Schools and Universities, Care homes, Prisons and Council Communities, Gyms, Leisure Centres and Parks etc..

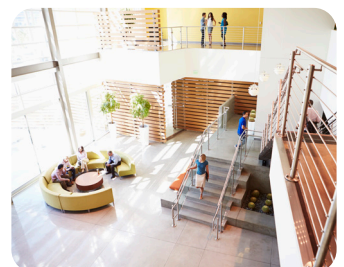

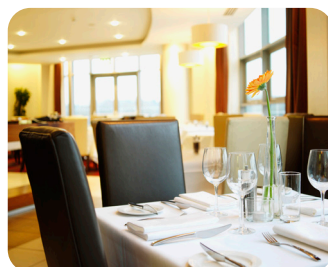

Bactericidal, viricidal and fungicidal

Effective against MRSA, Avian Flu, Hepatitis C, Norovirus

Suitable for body spillage and pathogen outbreaks

Accelerated Hydrogen Peroxide® and Design and Oxivir® are trademarks of Diversey, Inc.

## Floor Care

A range of hard floor products to cover most application needs. The unique dosing system allows trigger filling for spray buffing, bucket filling for traditional mop and bucket application, and offers first time accurate dilution for machines (scrubber driers) regardless of the volume required.
